

REQUEST FOR INFORMATION

- **Contract Number: CNR048**
- **Project: Interstate 24, Bridge Replacement over Spring Street and Oldham Street**
- **Date:**
- **Question:**

Special prequalification submittal is required on Friday, January 27.

If the contractor is considering a Joint Venture (JV) on this project, does the JV information have to be submitted by Friday, January 27?

Can a Joint Venture be formed after January 27, by two "special prequalified" contractors?

It seems that contractors would need to be "prequalified" prior to forming a JV, in this case a JV would be submitted after February 1.

- **TDOT Response:**

The Special Pre-qualification submittal is evaluated as a composite of the participating firms. The joint venture submittal must be received by January 27, 2017, identifying the role of the joint venture partners and to which of the partners the experience is related.

A joint venture must be prequalified with the Department at least 14 days prior to the letting date. Each firm entering into the joint venture must be individually pre-qualified with the Department as well. Special Pre-Qualification packages shall be submitted for the joint venture on or before January 27, 2017.
